Experience

Frontend Programming

Goodisoft Technologies 2023 - 2024

Skilled frontend developer focused on building clean, responsive, and accessible interfaces. Experienced in turning complex ideas into intuitive user experiences using modern web technologies, with a passion for scalable design, performance, and maintainable code.

Backend Programming

MobileGigo LTD 2024 till date

Collaborated with MobileGigo Tech Hub to develop highly functional, purpose-driven websites across various industries. Contributed as both a frontend and backend developer, building responsive user interfaces, implementing robust server-side logic, and ensuring seamless user experiences from end to end.

WordPress Development

MobileGigo LTD 2024 till date

Specialized in developing custom WordPress websites with clean, scalable code, transforming client requirements into high-performing, responsive solutions. Skilled in theme and plugin development, performance optimization, and delivering seamless user experiences tailored to diverse industries.

Wix Development

MobileGigo LTD 2024 till date

Experienced Wix developer with a strong focus on creating visually compelling, fully responsive websites that align with brand identity and business goals. Proficient in utilizing Wix Studio, Velo by Wix, and dynamic content to craft interactive, scalable, and client-focused digital experiences without compromising performance or design flexibility
